

## PERIOPERATIVE TRACK

**The Perioperative Track**, designed by ASE's Council on Perioperative Echocardiography, brings together cardiac anesthesiologists, sonographers, cardiologists, and surgeons with the goal of sharing knowledge in cardiovascular care and perioperative/periprocedural echocardiography.

### FRIDAY, JUNE 18

**6:00 PM – 7:00 PM**  
**Imaging in Transplantation:  
The Road from ECMO to  
Transplantation**

Chairs: Y. Maldonado, M. Taylor

**Heart Transplantation**

S. McCartney

**Veno-Venous ECMO: Who, When,  
Contradictions**

S. Pai Cole

**Lung Transplantation**

K. Subramaniam

**Question & Answer**

**8:30 PM – 9:30 PM**

**The Right Stuff**

Chairs: M. Hollon, S. Pai Cole

**Are TTE and TEE Equivalent for the Right  
Side in the Perioperative Space**

J. Puthumana

**Role for 3D TEE in Right Ventricle Imaging**

A. Nicoara

**Right Ventricular Strain**

K. Howard-Quijano

**Pulmonary Hypertension and Echo**

F. Haddad

**Tricuspid Valve Imaging**

D. Muraru

**Question & Answer**

### SATURDAY, JUNE 19

**1:15 PM – 2:15 PM**  
**BAD Ventricular Assist Device  
Problems**

Chairs: N. Silverton, M. Taylor

**The Right Side Fails**

J. Cowger

**Aortic Regurgitation**

A. Finley

**RAMP Optimization**

P. Song

**Pump Thrombosis and Ventricular Assist  
Device Infection**

Y. Maldonado

**Question & Answer**

### MONDAY, JUNE 21

**6:00 PM – 7:00 PM**  
**TEE and Mechanical  
Circulatory Support**

(ASE International Alliance Partner Session.
